2.2. Label elements

For classified products a derogation for affixing labels on the product - only in the form in which it is sold - exists under Annex 1 Section 1.3.4 of the CLP Regulation 1272/2008. However, all safety data sheets of classified products must include the appropriate label symbols and standard phrases. Under the derogation the product (in the form in which it is placed on the market) is not considered hazardous to human health by inhalation, ingestion, or skin contact or hazardous to the aquatic environments. Under normal conditions hazardous or classified substances like additives are encapsulated in the polymer matrix and are not released. If the product is grinded, shredded, or heated users should inform themselves of the existing exposure limits and be aware of potential inhalation risks.
